Taking Better Pictures

Summertime is a great time for pictures: sun, sand, surf! However, not all of us have fancy cameras or the experience to get that perfect shot, so give yourself the advantage of learning from a professional photographer during a virtual class. During the class, Emily Baldus, owner of Box of Light Photography, LLC in Muskegon, will explain some of the basics of photography. She will show examples of how to take pictures in different lighting and how to edit photos to create beautiful images. There will be time at the end for questions! To register, visit hackleylibrary.org, call 231-722-8011, or stop by the library.

Extrême ironing is an actual sport! If you want to combine your love of cleaning with your love of getting wild, then perhaps you'd like to try extreme ironing, which was founded in 1997 and has been challenging competitors to press shirts in unexpected locations—like high up in trees, hanging over cliffs, or paddling white-water rapids—for more than two decades.
