

Guitar Pick Necklace/Bracelet

You will need:

- Guitar Pick
- Leather Cord

Instructions:

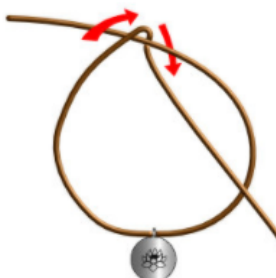

1

Decide how long you want your necklace or bracelet to be.

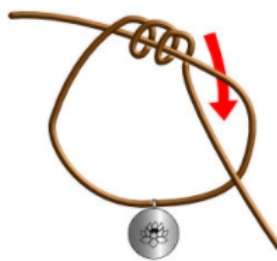

- For a long fit, wrap the cord around your neck or wrist and tie a simple knot when it's the right length.
- For a shorter, adjustable cord create a sliding knot:

Cross both ends of cord so the left cord is in front of the right cord.

Wrap the left cord around the right cord.

Make three loops around the right cord.

Move the tail of the cord to the first of the cord loops after the third wrap.

Pass the end of the cord through the loops.

Tighten the sliding knot by pulling on the tail end of the cord.

Repeat on the opposite side.

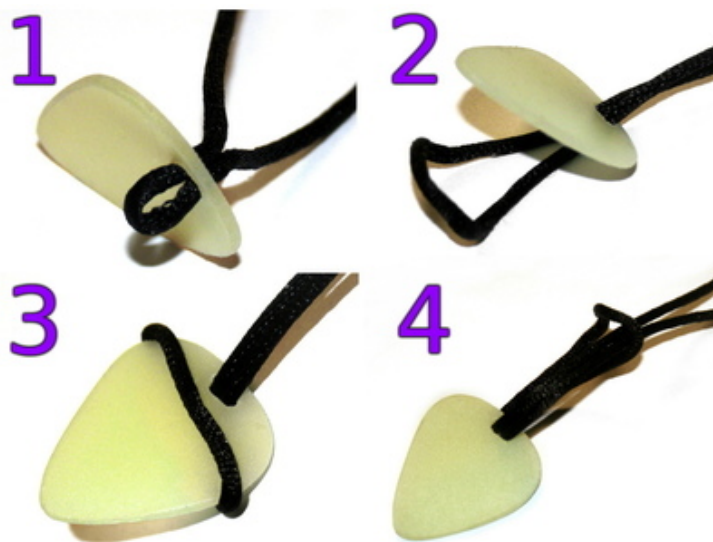

Trim the ends of the cord to be even, making sure to leave enough cord to tighten the knots if needed.

Guitar Pick Necklace/Bracelet

2

Attach the pick by making a loop from the cord and threading it through the hole, then pulling the pick through the loop.

3

That's it!

- If you chose to make an adjustable necklace or bracelet, be sure to tighten the knots when you wear it so the strap doesn't slip.
- If you want to remove the pick, or switch it out with another, just reverse the steps above.
