

Jingle Sticks

You will need:

- Wooden dowel
- Pipe cleaner
- Beads
- Bells

Instructions:

1 String your beads and bells on the pipe cleaner. Leave lots of room at both ends of the pipe cleaner. It works best if you put some beads between each pair of bells.

2 Twist the pipe cleaner around the wooden dowel. Wrap the ends really tight.

3 If your pipe cleaner falls off, secure it with tape on both ends
