# Spring Chick Succulents

## You will need:

- Pot
- Paint and brush
- Feathers
- Scissors
- 5 glue dots
- Cardstock
- Googly eyes
- Succulent

## Instructions:

- 1** Paint your pot and let it dry. Feel free to do multiple coats.
- 2** Use glue dots to attach two feathers to the front of your pot. These will be your wings.
- 3** Cut out a yellow cardstock diamond for a beak. Use glue dots to add the beak and the googly eyes.
- 4** Add your succulent. Stick a feather in the dirt so it pops up above the face.

**Plant Care:** be sure to place your succulent where it will get a lot of sunlight. Water the plant when the soil is dry. Be sure to get the soil wet, and not just the plant.
